

Valued Permit Holder,

This is a reminder that the reserved area permit you purchased guaranteeing you a parking space in your reserved area requires an access device in order to activate the parking control gates in and out of your reserved area. If you purchased the same reserved parking permit as you had last year, your access device will be automatically renewed. If you have already picked up your access device please disregard this email.

If you have not picked up your access device or need a new access device if switching garages from last year, please come to the Parking Services located next to the Shenandoah Parking Deck. If you are switching garages, please bring back your old access device. Be advised that the 5 minutes spaces in front of the Parking Services office are no longer available due to the construction of the Sandy Creek Transit Center. In light of this, 30 minute complimentary parking is available in the visitor section of the Shenandoah Parking Deck (Level 1 requiring you to pull a parking ticket to enter).

Our business hours effective August 22 are Monday through Thursday 8:30am-7pm and Friday 8:30am – 5pm. Leading up to the start of school we have special weekend hours on Friday, August 26th 8:30am-7pm, Saturday, August 27th 10am – 4pm, and Sunday, August 28th 12pm – 4pm.

If you have any questions please email Parking Services at parking@gmu.edu

Thank you and have a great year.
