

Faculty & Staff Fuel-Efficient Vehicle Preferred Parking Program

The George Mason University Parking and Transportation department has a preferred parking program for fuel efficient vehicles driven by Faculty & Staff members who own a valid Mason parking permit on the Arlington, Fairfax and Science & Technology campuses. This program allows faculty & staff members with qualifying fuel efficient vehicles to park in specially designated parking spaces throughout the respective campuses. Students may participate on the Arlington campus.

- To determine if a vehicle qualifies as a fuel efficient vehicle (FEV) for our program please click on the following link <http://www.greencars.org/news/list-leed-qualified-cars>, scroll down and click on LEED2016.xlsx
- If your vehicle does qualify, please bring your vehicle registration to a Parking Services office to receive a supplemental parking permit that will allow you to park in any of the spaces listed below.
- The FEV supplemental permit may only be used on qualifying vehicles to park in the specially designated fuel efficient parking space that day.
- In order to park in the specially designated FEV parking spaces within the Mason Pond or Shenandoah Parking Decks you must have the proper primary Mason reserved parking permit and access device for that location.
- Please note that parking in the specially designated FEV parking spaces is based on a first come, first served basis and there is no guarantee of a preferred space.
- We encourage everyone who drives a fuel efficient vehicle that qualifies to participate in this program and help support Mason's green initiatives and sustainability programs.

Locations of Fuel-Efficient Vehicle Parking
