

If you are on campus and have a vehicle parked in a surface lot you need to move your vehicle into the Rappahannock River Parking Deck General permit area, the Shenandoah Parking Deck permit area or the Mason Pond Parking Deck permit area prior to 5PM tonight. This includes vehicles in Lot R, Lot I, Lot J and all General permit lots. An update will be sent once the University's Facilities department has had a chance to address the weather regarding moving your vehicle back to your appropriate parking area based on your permit type. Please accept this safest option and move your vehicle now. We also appreciate your cooperation in assisting Facilities' ability to address the weather.

Thank you,
